## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 12 and 13 are rejected under 35 U.S.C. 102(b) as being anticipated by Kelderman (5,452,949).

Regarding claim 1, Kelderman discloses a track assembly capable of being used in a utility cart, the track assembly comprising:

- A frame (16) including a tensioning structure (41) for adjustably spacing first and second wheels (23, 33)
- A top tandem arm (21, 25, 26) pivotally connected to said frame (16) (at point 22) such that said top tandem arm (21, 25, 26) will pivot relative to said frame (16) in a substantially vertical plane, said first wheel (23) being directly connected to a top portion of said top tandem arm (21, 25, 26) at one end of said frame (16)
- A bottom tandem arm (27) having a front portion, a rear portion, a top portion, and a bottom portion, said top portion of said bottom tandem arm being pivotally (at 28) connected to a bottom portion of said top tandem arm (21, 25, 26)
- A front tandem arm idler wheel (29) operably connected to said front portion of said bottom tandem arm (27)
- A rear tandem arm idler wheel (29) operably connected to said rear portion of said bottom tandem arm (27)
- A belt (19) in engagement with said tandem arm idler wheels and said first and second wheels

Regarding claim 12, Kelderman discloses that the first wheel (23) is a large idler wheel (Figure 2).

Regarding claim 13, Kelderman discloses that the said front tandem arm idler wheel pivots transversely in a generally vertical plane relative to said bottom tandem arm; and wherein said rear tandem arm idler wheel pivots transversely in a generally vertical plane relative to said bottom tandem arm (both about point 28) (Figure 2).

### ***Allowable Subject Matter***

3. Claims 2, 6-11 and 14 are allowed.

### ***Response to Arguments***

4. Applicant's arguments with respect to claims 1, 12 and 13 have been considered but are moot in view of the new ground(s) of rejection.

### ***Conclusion***

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 3671

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
